

IoT Project Titles 2021-22

Project Code	Title
EGT – IoT – 001	Smart electricity meter using IoT
EGT – IoT – 002	Smart Street lights using IoT
EGT – IoT – 003	IoT based Greenhouse monitoring and controlling system
EGT – IoT – 004	ZIGBEE or RF and internet based advanced street light controlling system
EGT – IoT – 005	Missing People Identification System IoT
EGT – IoT – 006	Cell Phone Tower Base Station Safety and Security System
EGT – IoT – 007	DAM Water Level Monitoring
EGT – IoT – 008	Automated Street Light Control And Manhole Monitoring With Fault Detection & Reporting System For Municipal Department.
EGT – IoT – 009	Solid Wastage Management System for Smart Cities
EGT – IoT – 010	IoT Projects: Wireless Video Surveillance Robot using Raspberry Pi
EGT – IoT – 011	OTP Based Smart Wireless Locking System Using Arduino
EGT – IoT – 012	Noise Detector with Automatic Recording System Using Arduino With The IoT
EGT – IoT – 013	IoT-Assisted ECG Monitoring Framework With Secure Data Transmission for Health Care Application
EGT – IoT – 014	IOT Based Fault Detection of Underground Cables through Node MCU Module
EGT – IoT – 015	IoT based smart city dumping arid system
EGT – IoT – 016	Monitoring of Industrial Electrical Equipment using IoT
EGT – IoT – 017	IoT Assisted ECG Monitoring and secure data Transmission
EGT – IoT – 018	IoT based surveillance robotic car using raspberry pi
EGT – RT – 018	Voice / touch screen /MEMS controlled Wheel chair for patients and physically challenged persons with capacity upto 100Kgs
EGT – RT – 019	Child safety management system using RF Technology.
EGT – RT – 020	A new innovative and effective system for trains and railway stations for auto announcements of trains ,power saving and auto railway gate control
EGT – RT – 021	Advanced security systems for jeweler shops and banks
EGT – RT – 022	Advanced products price and info display with easy data changing system
EGT – RT – 023	Electronic Protection for Exam Paper Leakage
EGT – IP – 023	Advanced secured ATM system with three layer security protection
EGT – IP – 024	RFID technology based reminder system for smart home
EGT – IP – 025	Locker opening and closing system Using RFID, fingerprint, password And GSM
EGT – IP – 026	Design of accurate universal digital clock using GPS for time synchronization applications
EGT – IP – 027	Design of Concealed Alarm System Based Security system for Banks and shopping malls using GSM
